

## Layered Navigation

For smooth search and navigation.

### List of features:

- Adds layered navigation to your website home page;
- Uses breadcrumbs-like categories display adopted from Amazon.com;
- Enables your customers to shop by multiple attributes in a category;
- Enables your customers to filter search results by multiple attributes;
- Highlights current selection directly in the filter block;
- Allows customers to select a price range or to input price directly;
- Uses popular Price Slider control;
- Boosts your site performance with the fast AJAX calls;
- Improves user experience with the AJAX paging and sorting;
- Makes your website more SEO-friendly with static category URLs;
- Comes with a User Manual
- 100% Open Source.

## user manual

# Configuring the Extension

**Layered Navigation Pro**

Categories Filter	<input type="text" value="Breadcrumbs"/>	[STORE VIEW]
Price Filter	<input type="text" value="Default"/>	[STORE VIEW]
Remove Links from the Navigation	<input type="text" value="No"/> <small>▲ This prevents 'Duplicate content' penalty from search engines, however customers with disabled JavaScript won't be able to use the filters</small>	[STORE VIEW]
Reset Filters while Click on Another Category	<input type="text" value="No"/>	[STORE VIEW]
Reload page while Click on Another Category	<input type="text" value="No"/>	[STORE VIEW]
Scroll to Top when Clicking on a New Parameter	<input type="text" value="No"/>	[STORE VIEW]

To configure the extension please go to admin area > System > Configuration > Design > Layered Navigation Pro.

- “Categories Filter” can either be set to “Breadcrumbs” or disabled.
- “Price filter” can be set to “Default” (list of price range options - as in standard layered navigation), “Slider” (customers will be able to “slide” the lower and upper price values to see all products within the needed range) and “Input” (customers will be able to input any price range values).
- “Reset Filters while Click on Another Category” – set it to “Yes” if you would like selections to be reset each time a customer goes to a different category.
- “Scroll to Top When Clicking on a New Parameter” - set it to “Yes” if you would like the page to show the top of the page when a new filter is selected.
